

It's amazing what time and energy our elected officials will waste time on. I oppose Petition 04-160 by the NAB, it is not a threat to anyone, as we all have a choice as to how we choose to receive our information. If I choose to pay XM to provide me with a mode of information, then that is my right. If I choose to listen to "free" radio along with its opinions and commercials, then again, that's my choice.
Vote to oppose this attempt to take that choice away from me!
